INDEPENDENT AUDITOR'S REPORT

December 22, 2005

Board of Mayor and Aldermen
City of Fairview, Tennessee
Fairview, Tennessee

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fairview, Tennessee, as of and for the year ended June 30, 2005, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Fairview, Tennessee's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fairview, Tennessee, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2005, on our consideration of City of Fairview, Tennessee's internal control over financial reporting and on our tests on its compliance with certain provisions of laws, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 3 through 9 and 31 through 36, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Fairview, Tennessee's basic financial statements. The schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**CITY OF FAIRVIEW, TENNESSEE
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2005**

As management of the City of Fairview, Tennessee we offer the readers of the City of Fairview, Tennessee's financial statements this narrative overview and analysis of the financial activities of the City of Fairview, Tennessee for the fiscal year ended June 30, 2005. We encourage readers to consider the information presented in conjunction with additional information that we have furnished in the basic financial statements and the accompanying notes to those financial statements. All amounts, unless otherwise indicated, are expressed in actual dollars.

FINANCIAL HIGHLIGHTS

Management believes the City of Fairview's financial condition is strong. The City is well within its budget and the more stringent financial policies and guidelines set by the Board of Commissioners and management. The following are key financial highlights.

- The assets of the City of Fairview exceeded liabilities at the close of the most recent fiscal year by \$17,699,216. Of this amount, \$4,807,680 (unrestricted net assets) may be used to meet the government's ongoing obligation to citizens and creditors.
- At June 30, 2005, the City's government funds reported combined ending fund balances of \$2,022,444 or, an increase of \$232,448 in comparison with the prior year.
- At June 30, 2005 unreserved fund balance for the General Fund was \$1,129,904, or 38.62% of total general fund expenditures.
- The City's total bonded debt decreased by \$644,013 during the year ended June 30, 2005. Of this amount, general fund long-term debt decreased by \$236,441; water and sewer long-term decreased by \$407,572.
- The City's capital assets increased by \$326,543 during the year ended June 30, 2005. This is the second year the city has reported capital assets under GASB 34.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis (MD&A) serves as an introduction to and should be read in conjunction with the financial statements and supplementary information. The MD&A represents management's examination and analysis of the City's financial condition and activities. Summary financial statement data key financial and operational indicators, budget and other management tools were used for this analysis. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *Statement of Net Assets* presents the financial position of the City on a full accrual, historical cost basis. The statement of net assets provides information on the entire City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

CITY OF FAIRVIEW, TENNESSEE
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2005

The *Statement of Activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets, drug enforcement, and parks and recreation. The business-type activities of the City include the operations of the water and sewer facilities.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains two individual governmental funds. Information is presented separately in the governmental fund balances and in the governmental fund statements of revenues, expenditures, and changes in fund balances for the general fund and drug fund, both of which are considered to be major funds.

The City adopts an annual appropriations budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

**CITY OF FAIRVIEW, TENNESSEE
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2005**

Proprietary funds. The City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its Water and Sewer activities.

Proprietary funds provided the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the Water and Sewer activities of the City, which is considered to be a major fund.

Notes to the financial statements. The notes to the financial statements provide required disclosures and other information that are essential to a full understanding of material data provided in the government-wide and fund financial statements. The notes present information about the City's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any. The notes to the financial statements can be found on pages 18-30 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Fairview, assets exceeded liabilities by \$17,699,216, at the close of the most recent fiscal year.

By far the largest portion of the City's net assets (70%) reflects its investment in capital assets (e.g., land and buildings) less any outstanding, related debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to pay this debt must be proved from other sources, since the capital assets themselves cannot be used to liquidate the liabilities.

City of Fairview, Tennessee's Net Assets

	<u>Governmental</u> <u>Activities</u>	<u>Business-type</u> <u>Activities</u>	<u>Total</u>
	<u>FY 2005</u>	<u>FY 2005</u>	<u>FY 2005</u>

Total	<u>\$ 9,114,507</u>	<u>\$ 13,489,095</u>	<u>\$ 22,603,602</u>

At year end, 14.37% of the City's governmental net assets represented resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net assets (\$5,317,075) may be used to meet the government's ongoing obligations to citizens and creditors.

At June 30, 2005, the City is able to report positive balances in all three categories of net assets, both government as a whole, as well as for its separate governmental and business-type activities.

Net assets June 30, 2005	\$ <u>2,022,444</u>	\$ <u>11,489,601</u>	\$ <u>13,512,045</u>

The government's assets increased \$840,608 during the fiscal year. Most of this increase represents operation of the water and sewer utility.

Governmental activities: Governmental activities increased net assets by \$232,448, which accounts for 27.65% of the total growth in the net asset of the City of Fairview in FY 2005

Business-type activities. Business-type activities increased the net assets by \$608,160 or 72.35% of the total growth in the net assets of the City of Fairview.

Financial Analysis of the Government's Funds

As previously noted, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**CITY OF FAIRVIEW, TENNESSEE
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2005**

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's near resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, all the City's governmental funds reported a combined ending fund balance of \$2,022,444, an increase of \$232,448 over the previous year. Of the total \$2,022,444 balance, \$189,473 is restricted for use in the State Street Aid Fund, which provides for paving and maintenance of streets. Another \$492,886 is restricted to use within the Drug enforcement Fund. Finally, \$210,1810 is restricted for capital projects.

The balance of \$1,139,491 is unrestricted in the operation of the general fund of the City. As a measure of the general fund's liquidity, it may be useful to compare the unreserved fund balance to the fund's expenditures. The unreserved fund balance (\$1,139,491) represents 38.9% of the general fund's expenditures.

Proprietary funds. The City's Water and Sewer Utility operates in a proprietary fund and the information is found in the government-wide financial statements.

Net assets for the Water & Sewer Fund are \$11,489,601 and increased by \$608,160. Of the \$11,489,601 in the fund balance, \$3,675,977 is unrestricted for use in the fund.

General Fund Budgetary Highlights

Actual revenue exceeded budgeted projections by \$291,652, due to implementation of a 1/2 cent local sales tax. Actual expenditures for the general government were \$23,720 less than budgeted.

Capital Asset and Debt Administration

At the end of fiscal year 2005, the City had \$15,942,134 (net of accumulated depreciation) invested in a broad range of capital assets, vs. \$15,383,196 at the beginning of the year. This total includes land, land improvements, buildings, utility system equipment and infrastructure. The total increase in the City's investment in capital assets for the current period amounted to \$558,938. This represents a 3.9% increase in total assets. The general fund had a net increase of \$326,982, while the Water and Sewer had a decrease of \$239,520 in capital assets.

Long-term debt. At the end of the current fiscal year, the City had total debt outstanding of \$3,943,138 vs. a beginning balance of \$4,587,151. Of this amount, \$2,037,504 comprises debt in the general fund and backed by the full faith and credit of the government. The Water and Sewer Fund ended the year with \$1,905,634 in long-term debt, represented by bonds secured primarily by a specified revenue source and a full faith and credit pledge.

CITY OF FAIRVIEW, TENNESSEE
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2005

City of Fairview, Tennessee's Net Assets
General Obligation and Revenue Bonds

	Governmental Activities	Business-type Activities	Total
General Obligation Bonds	\$ 2,037,504	\$ 625,367	\$ 2,662,871
Revenue Bonds		1,425,000	1,425,000
Less deferred charges	0	(144,733)	(144,733)
Total	\$ <u>2,037,504</u>	\$ <u>1,905,745</u>	\$ <u>3,943,249</u>

The City's total debt decreased by a net \$644,013, during the current year. No new debt was issued to the Water and Sewer or General Fund. Additional information is available on pages 25-27.

Economic Factors and New Year's Budget and Rates

Factors considered in preparation of the City's budget for the 2006 fiscal year include the following:

- The reduction of State shared revenue will be returned to cities and will lessen the previous effect.
- The citizens of Fairview passed an additional ½ cent sales tax - providing a substantial source of income.
- The Board of Commissioners increased the property tax rate from .72 to .84.
- The City of Fairview is currently under a sewer moratorium by the Tennessee Department of Environment and Conservation (TDEC). Without relief, the decline in building permits will affect the general fund.

This overview is designed to provide general information about the City of Fairview's finances. Questions should be directed to the Financial Department, Kathleen Daugherty or the City Manager, Al Deck. City of Fairview, P. O. Box 69, Fairview, TN 37062.

CITY OF FAIRVIEW, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2005

NOTE 1 - SUMMARY OF ACCOUNTING POLICIES

The City of Fairview, Tennessee (the "City") was incorporated on July 1, 1959, under the provisions of the State of Tennessee. The City operates under a Commissioner-Manager form of government and provides the following services as authorized by its charter: public safety (police and fire services), streets, culture-recreation, public improvements, planning and zoning, and general administrative services. Other services include water and sewer systems.

The accounting policies of the City conform to accounting principles generally accepted in the United States applicable to governmental units, as prescribed by the Governmental Accounting Standards Board (GASB). The following is a summary of the more significant policies.

The Reporting Entity

The City, for financial purposes, includes all of the accounts relevant to the operations of the City of Fairview. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from the City of Fairview.

The financial statements of the City include those of separately administered organizations that are controlled by or dependent on the City. Control or dependence is determined on the basis of budget adoption, taxing authority, funding and appointment of the respective governing board.

Based on the foregoing criteria in GASB pronouncements, there are no component units to be included in the accompanying financial statements.

Government-wide and Fund Financial Statements

The government-wide financial statements, the statement of net assets and statement of changes in net assets, report information on all nonfiduciary activities of the City of Fairview. Governmental activities, which are usually supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on charges for services and fees.

The statement of activities indicates the degree to which direct expenses of each function or segment are offset by program revenues. Direct expenses are expenses that are identifiable with a specific function. Program revenues are: (a) charges to customers and/or applicants who purchase, use or benefit directly from services, goods, or privileges provided by a given function and (b) grants and contributions that are restricted to the operational or capital requirements of a specific function. Such revenues are taxes and other revenue that may not be included in program revenues are reported as general revenues.

Separate financial statements are presented for governmental funds and proprietary funds. Major individual governmental funds are reported in separate columns in the fund financial statements.

CITY OF FAIRVIEW, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2005

Basis of Accounting and Basis of Presentation and Measurement Focus

Government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting, including the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when incurred, regardless of the timing of the related cash flow. Property taxes are recognized in the year for which they are levied. Grants and similar items are recognized in the year for which they are levied. Grants and similar items are recognized as revenue when all eligible requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within sixty days of the end of the current fiscal year. Expenditures are recorded when a liability is incurred, as in accrual accounting. Debt service expenditures, as well as expenditures related to compensated absences, claims and judgments, are recorded when payment is due.

Property taxes, franchise taxes, and interest associated with the current fiscal year are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal year. Other revenue items are considered to be measurable and available only when cash is received and is recognized as revenue at that time.

The City also reports the following major funds:

The "General Fund" is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The "Capital Projects Fund" accounts for the acquisition, design and construction of major capital improvements projects of the City other than improvements financed by the Water and Sewer Fund.

The City also reports the following major proprietary funds:

The "Water and Sewer Fund" accounts for the activities of the water and sewer department, which operates and provides potable water and maintains a sewer collection system for residents and businesses on a user charges basis. The activities necessary to provide these services are accounted for in a manner to create a profit or loss similar to comparable private businesses.

The City has no internal service or fiduciary funds as of and for the year ended June 30, 2005.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both government-wide and proprietary fund financial statements to the extent that those standards do

CITY OF FAIRVIEW, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2005

not conflict with or contradict guidance of the Government Accounting Standards Board (GASB). Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow private-sector guidance.

Interfund activities has been eliminated from the government-wide financial statements, except for charges between the City's water and sewer functions. Elimination of these charges would distort the direct costs and program revenues reported in those functions.

Amounts reported as program revenues include (a) charges to customer and/or applicants for goods, services and privileges provided, (b) capital grants and contributions.

The proprietary fund distinguishes operating revenues and expense from non-operating revenues and expenses. Operating revenues and expenses result from providing services and/or producing and delivering goods in connection with a proprietary fund's operations. The principal operating revenues of the City's proprietary water and sewer funds are charges to customers for water and services. The proprietary fund recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the proprietary funds include the cost of sales and/or services, general and administrative expenses and depreciation on capital assets. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Cash Equivalents

Cash and cash equivalents are stated at cost and consist principally of demand deposits, short-term certificates of deposits (original maturities of three months or less) and investments in the Local Government Investment Pool of the State of Tennessee.

Statutes authorize the City to invest in (a) U S Government securities and obligations guaranteed by the U S Government, (b) deposit accounts at state and federal chartered banks and savings and loan associations, (c) the Local Government Investment Pool of the State of Tennessee. During the year, the City invested funds that were not needed immediately in savings accounts and short-term certificates of deposits. Deposits in financial institutions are required by State statute to be secured and collateralized by the financial institutions. The collateral must meet certain requirements and must have a minimum market value of 105% of the value of the deposits balance less the amount insured by federal depository insurance. Collateral requirements are not applicable for financial institutions who participate in the State of Tennessee's collateral pool.

The State of Tennessee Local Government Investment Pool operates in accordance with appropriate state laws. The reported value of the Pool is the same as the fair value of the Pool shares.

CITY OF FAIRVIEW, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2005

Receivables

Taxes and trade receivables are shown net of an allowance for uncollectible accounts.

Restricted Assets

Certain assets, such as the drug special revenue fund, the capital projects fund and state street funds are classified as restricted assets because their use is limited by applicable regulations.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure (roads, bridges, sidewalks and similar assets) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial and individual cost of \$5,000 or more and an estimated useful life of two years or more. Assets are recorded at historical cost or estimated cost if purchased or constructed. Donated capital assets are recorded at the estimated fair value at the date of donation.

The cost of normal repairs and maintenance that do not add to the value of the asset or substantially extend the life of the asset are not capitalized, but are charged to expense.

Capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the asset constructed. During the year, the business-type activities had no construction that required interest to be capitalized.

Property, plant and equipment is depreciated using the straight-line method over the estimated useful lives, as follows:

Buildings	40-50 years
Utility plant in service	40-50 years
Machine and equipment and vehicles	5-10 years

The City has elected to apply the Modified Approach to accounting for its streets infrastructure system as set forth in GASB 34. Using that approach, the City uses ASTM International Pavement Condition Index (PCI) to assess the surface condition of individual pavement segments. The City's most recent assessment, conducted in October 2004, found that 62.5% of its streets met or exceeded a PCI rating of good.

In accordance with GASB Statement No. 34 (GASB 34), the City is required to account for and report infrastructure capital assets. The City defines infrastructure as the basic physical assets that allow the City to function and those resources utilized primarily by the public and provides future economic benefits for a minimum of two years. Infrastructure assets are capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than other capital assets. The City's major infrastructure systems include the street system, bridges, sidewalks and similar assets.

CITY OF FAIRVIEW, TENNESSEE
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2005

The City has elected to use the "Modified Approach" as defined by GASB 34 for infrastructure reporting for its street system. Under GASB 34, eligible infrastructure capital assets are not required to be depreciated under the following requirements:

- The City manages the eligible infrastructure capital assets using an asset management system with characteristics of (1) an up-to-date inventory; (2) perform condition assessments and summarize the results using a measurement scale, and (3) estimate the annual amounts necessary to maintain and preserve the established condition assessment level.
- The City documents that the eligible infrastructure capital assets are being preserved approximately at or above the established and disclosed condition assessment level.

Upon completion of the assessment, a pavement condition index (PCI) was calculated to assess the overall condition of individual pavement segments.

Using the PCI, a number grade was given to each road, which corresponded with its specific rating, so that each road could be more specifically classified within its respective rating category.

Road evaluations were performed using guidelines from ASTM publications. These publications presented picture examples of distresses, information concerning all pertinent distresses, and a PCI rating scale. This information was used to determine the quality of the roads in the City.

The following pavement quality conditions have been defined:

Good or better	63.5%
Fair	25.0%
Pass	11.5%
Fail	.0%

The City expended \$216,948 on street maintenance for the fiscal year ended June 30, 2005. The budget required to maintain and improve the current level of overall condition the City feels will be made available through the annual budget process, a portion of which is funded by a percentage of the fuel taxes collected by the State.

Long-Term Obligations

In the government-wide financial statements, proprietary fund types in the fund financial statements, long-term debt is reported as a liability in the applicable government activities, business-type activities or proprietary fund type statement of assets.

Bond issue costs are reported as deferred charges and amortized over the term of the related debt.

The face amount of debt issued is reported as other financial sources. Debt issuance costs, whether withheld from the actual debt proceeds received or not withheld, are reported as debt service expenditures.

CITY OF FAIRVIEW, TENNESSEE
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2005

Fund Balances

Governmental funds, in the fund financial statements, report reservations of fund balances for amounts that are not available for appropriation and/or legally restricted by outside third-parties for specific purposes.

NOTE 2 - REVENUE RECOGNITION - PROPERTY TAXES

The City's charter requires property to be levied on October 1 and become due and payable on October 1. Taxes not paid by March 1 of the following year become delinquent and penalty and interest begins to accumulated on that date. Property taxes are recognized as revenue when they become measurable and available. Property taxes collected within sixty days after year end are considered to be measurable and available and are recognized as revenue at year end; taxes not collected within sixty days after year end are reported as deferred revenue.

	Tax	Assessment	Levy	Balance June 30, 2004	Taxes Levied	Collections	Balance June 30, 2005

				<u>\$ 742,166</u>	<u>\$ 820,657</u>	<u>\$ 673,430</u>	<u>\$ 889,393</u>

Delinquent taxes of 2002 and older have been filed with the Williamson County Clerk and Master.

NOTE 3 - DEPOSITS AND INVESTMENTS

The City's cash and cash equivalents at June 30, 2005, were held by financial institutions which participate in the bank collateral pool administered by the Treasurer of the State of Tennessee. Participating banks determine the aggregate balance of their public fund accounts for the City. The amount of collateral required to secure these public deposits must be equal to at least 105% of the average daily balance of public funds held. Collateral securities required to be pledged by the participating bank to protect their public funds accounts are pledged to the State Treasurer on behalf of the bank collateral pool. The

CITY OF FAIRVIEW, TENNESSEE
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2005

securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment, public fund accounts covered by the pool are considered to be insured for purpose of credit risk disclosure.

A reconciliation of cash and cash equivalents as shown on the combined balance sheet is as follows:

Carrying amount of deposit	\$ 806,369
Deposits in State of Tennessee Local Government Investment Pool	4,460,711
Cash on hand	<u>1,900</u>

NOTE 6 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The City maintains insurance coverage through the Tennessee Municipal League Risk Management Pool, covering each of those risk of loss. The TML Pool is a cooperative risk sharing arrangement between local government agencies that works in many ways like a traditional insurer. The City pays a premium, receives coverage, and can make claims against the coverage. The City meets the TML's guidelines and complies with its rules and regulations, including loss control requirements as well as its underwriting standards. Rates of the TML Pool are actuarially projected to provide adequate funding to cover loss reserves and expenses, as well as building contingency reserves. Management believes such coverage is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this commercial coverage in any of the past three years.

NOTE 8 - RETIREMENT PLAN

Plan Description

Employees of City of Fairview are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who became disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State

CITY OF FAIRVIEW, TENNESSEE
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2005

statutes are amended by the Tennessee General Assembly. Political subdivisions such as City of Fairview participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at www.treasury.state.tn.us/tcrs.PS/.

Funding Policy

City of Fairview has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to 5.0 percent of annual covered payroll.

City of Fairview is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2005 was 10.94% of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for City of Fairview is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ending June 30, 2005, City of Fairview's annual pension cost of \$160,816 to TCRS was equal to City of Fairview's required and actual contributions. The required contribution was determined as part of the June 30, 2003 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation of salaries), (c) projected 3.5 percent annual increase in the Social Security wage base, and (d) projected post retirement increases of 3.0 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a five-year period. City of Fairview's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2003 was 11 years.

CITY OF FAIRVIEW, TENNESSEE
REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS
YEAR ENDED JUNE 30, 2005

December 22, 2005

Board of Mayor and Commissioners
City of Fairview, Tennessee
Fairview, Tennessee

We have audited the financial statements of the governmental activities, the business-type activities, of City of Fairview, Tennessee, as of and for the year ended June 30, 2005, and have issued our report thereon dated December 22, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Fairview, Tennessee's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation or the internal control over financial reporting that, in our judgment, could adversely affect City of Fairview, Tennessee's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. Reportable conditions are described in the accompanying schedule of findings as Item 2.

Compliance

As part of obtaining reasonable assurance about whether City of Fairview, Tennessee's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, according, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards*, which are described in the accompanying schedule of findings and questioned costs as Item 2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe none of the reportable conditions described above is a material weakness.

This report is intended solely for the information and use of management, others within the organization, and the Comptroller of the Treasury of the State of Tennessee and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF FAIRVIEW, TENNESSEE
FINDINGS AND DISPOSITION
YEAR ENDED JUNE 30, 2005

1. **FINDING:** Finding for the year ended June 30, 2004, relating to recording budget amendments has been corrected.

2. **FINDING:** The Water and Sewer Department has customers who are subject to Tennessee sales/use tax and other customers who are exempt from the tax. Customers are designated as taxable or non-taxable in the computer program. During the year ended June 30, 2005, some customers were not assigned to either group. Sales and taxes collected from these accounts were not reported on the monthly tax reports to the state. Late reporting and payment of sales/use taxes could result in substantial penalties.

RECOMMENDATION: The water/sewer customer list should be reviewed monthly to determine whether all customers are assigned to appropriate groups. Sales/use taxes on the monthly reports should be reconciled to the sales/use tax return.

RESPONSE: The unassigned customers are now assigned to their proper group and reports will be reconciled in the future.
