- a. The complaint should be in the form of a letter and give details on the condition(s) and how the employee believes it affects or will affect his health, safety, or general welfare. The employee should sign the letter but need not do so if he wishes to remain anonymous (see subsection (h) of Section 1 of this plan).
- b. Upon receipt of the complaint letter, the Safety Director will evaluate the condition(s) and institute any corrective action, if warranted. Answers to anonymous complaints will be posted upon bulletin boards or other places of common passage where the anonymous complaint may be reasonably expected to be seen by the complainant for a period of three (3) working days.
- c. If the complainant finds the reply not satisfactory because it was held to be invalid, the corrective action is felt to be insufficient, or the time period for correction is felt to be too long, he may forward a letter to the Chief Executive Officer or to the governing body explaining the condition(s) cited in his original complaint and why he believes the answer to be inappropriate or insufficient.
- d. The Chief Executive Officer or a representative of the governing body will evaluate the complaint and will begin to take action to correct or abate the condition(s) through arbitration or administrative sanctions or may find the complaint to be invalid. An answer will be sent to the complainant within ten (10) working days following receipt of the complaint or the next regularly scheduled meeting of the governing body following receipt of the complaint explaining decisions made and action taken or to be taken.
- e. After the above steps have been followed and the complainant is still not satisfied with the results, he may then file a complaint with the Commissioner of Labor and Workforce Development. Any complaint filed with the Commissioner of Labor and Workforce Development in such cases shall include copies of all related correspondence with the Safety Director and the Chief Executive Officer or the representative of the governing body.

- iii. The immediate supervisor of any employee who must perform work in a confined or enclosed space shall be responsible for instructing employees on danger of hazards which may be present, precautions to be taken, and use of personal protective and emergency equipment, immediately prior to their entry into such an area and shall require use of appropriate personal protective equipment.

XI. GENERAL INSPECTION PROCEDURES

It is the intention of the governing body and responsible officials to have an Occupational Safety and Health Program Plan that will insure the welfare of employees. In order to be aware of hazards, periodic inspections must be performed. These inspections will enable the finding of hazards or unsafe conditions or operations that will need correction in order to maintain safe and healthful worksites. Inspections made on a pre-designated basis may not yield the desired results. Inspections will be conducted, therefore, on a random basis at intervals not to exceed thirty (30) calendar days.

- a. In order to carry out the purposes of this Ordinance, the Safety Director and/or Compliance Inspector(s), if appointed, is authorized:
 1. To enter at any reasonable time, any establishment, facility, or worksite where work is being performed by an employee when such establishment, facility, or worksite is under the jurisdiction of the employer and;
 2. To inspect and investigate during regular working hours and at other reasonable times, within reasonable limits, and in a reasonable manner, any such place of employment and all pertinent conditions, processes, structures, machines, apparatus, devices, equipment, and materials therein, and to question privately any supervisor, operator, agent, or employee working therein.
- b. If an imminent danger situation is found, alleged, or otherwise brought to the attention of the Safety Director or Inspector during a routine inspection, he shall immediately inspect the imminent danger situation in accordance with Section XII of this plan before inspecting the remaining portions of the establishment, facility, or worksite.
- c. An administrative representative of the employer and a representative authorized by the employees shall be given an opportunity to consult with and/or to accompany the Safety Director or Inspector during the physical inspection of any worksite for the purpose of aiding such inspection.
- d. The right of accompaniment may be denied any person whose conduct interferes with a full and orderly inspection.
- e. The conduct of the inspection shall be such as to preclude unreasonable disruptions of the operation(s) of the workplace.

- f. Interviews of employees during the course of the inspection may be made when such interviews are considered essential to investigative techniques.
- g. Advance Notice of Inspections.
 - 1. Generally, advance notice of inspections will not be given as this precludes the opportunity to make minor or temporary adjustments in an attempt to create misleading impression of conditions in an establishment.
 - 2. There may be occasions when advance notice of inspections will be necessary in order to conduct an effective inspection or investigation. When advance notice of inspection is given, employees or their authorized representative(s) will also be given notice of the inspection.
- h. The Safety Director need not personally make an inspection of each and every worksite once every thirty (30) days. He may delegate the responsibility for such inspections to supervisors or other personnel provided:
 - 1. Inspections conducted by supervisors or other personnel are at least as effective as those made by the Safety Director.
 - 2. Records are made of the inspections, any discrepancies found and corrective actions taken. This information is forwarded to the Safety Director.
- i. The Safety Director shall maintain records of inspections to include identification of worksite inspected, date of inspection, description of violations of standards or other unsafe conditions or practices found, and corrective action taken toward abatement. Those inspection records shall be subject to review by the Commissioner of Labor and Workforce Development or his authorized representative.

XII. IMMEDIATE DANGER PROCEDURES

- a. Any discovery, any allegation, or any report of imminent danger shall be handled in accordance with the following procedures:
 - 1. The Safety Director shall immediately be informed of the alleged imminent danger situation and he shall immediately ascertain whether there is a reasonable basis for the allegation.
 - 2. If the alleged imminent danger situation is determined to have merit by the Safety Director, he shall make or cause to be made an immediate inspection of the alleged imminent danger location.
 - 3. As soon as it is concluded from such inspection that conditions or practices exist which constitutes an imminent danger, the Safety Director or Compliance Inspector shall attempt to have the danger corrected. All employees at the location shall be informed of the danger and the supervisor or person in charge

of the worksite shall be requested to remove employees from the area, if deemed necessary.

4. The administrative or operational head of the workplace in which the imminent danger exists, or his authorized representative, shall be responsible for determining the manner in which the imminent danger situation will be abated. This shall be done in cooperation with the Safety Director or Compliance Inspector and to the mutual satisfaction of all parties involved.
5. The imminent danger shall be deemed abated if:
 - i. The imminence of the danger has been eliminated by removal of employees from the area of danger.
 - ii. Conditions or practices which resulted in the imminent danger have been eliminated or corrected to the point where an unsafe condition or practice no longer exists.
6. A written report shall be made by or to the Safety Director describing in detail the imminent danger and its abatement. This report will be maintained by the Safety Director in accordance with subsection (i) of Section XI of this plan.

b. Refusal to Abate.

1. Any refusal to abate an imminent danger situation shall be reported to the Safety Director and city manager immediately.
2. The Safety Director and/or city manager shall take whatever action may be necessary to achieve abatement.

XIII. ABATEMENT ORDERS AND HEARINGS

Upon receipt of such objections, the Safety Director shall act promptly to hold a hearing with all interested and/or responsible parties in an effort to resolve any objections. Following such hearing, the Safety Director shall, within three (3) working days, issue an abatement order to the city manager for review and approval.

XIV. PENALTIES

- a. No civil or criminal penalties shall be issued against any official, employee, or any other person for failure to comply with safety and health standards or any rules or regulations issued pursuant to this Program Plan.
